

CIS*4030 – Mobile Computer – Week Seven: Navigation

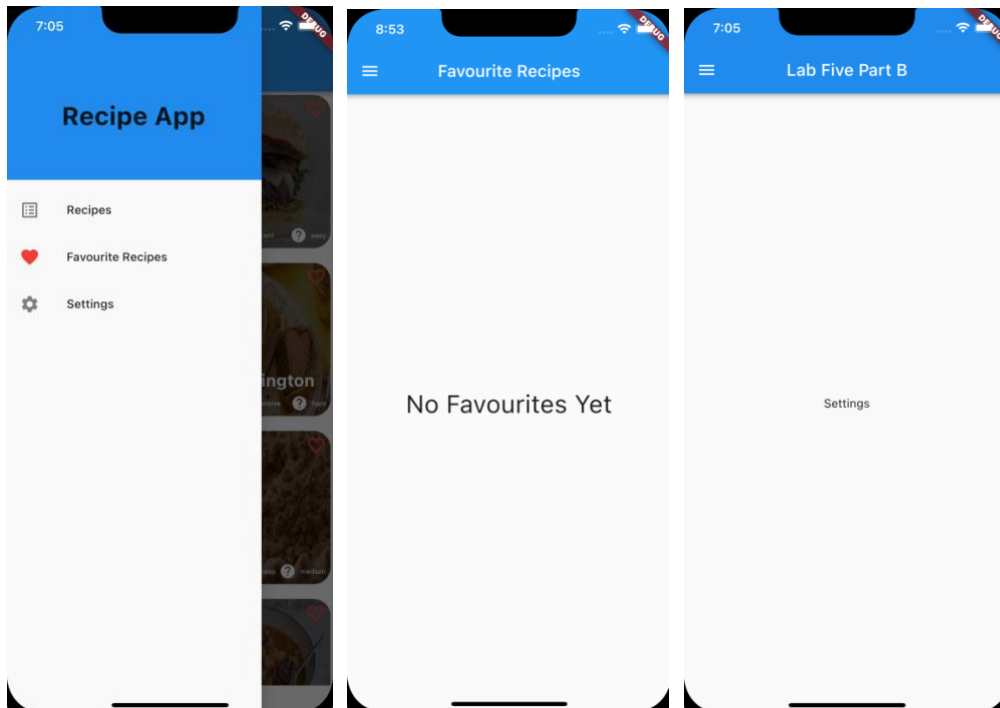

For this week's exercise you will be utilizing navigation to connect the last two (i.e., when you click on the recipe on the grid it will lead into the relevant recipe screen).

Weight: This exercise is worth 4% of your final grade and is due during class time (on Monday's and Wednesday's) with a two week window for submission. For this exercise since it will officially be assigned on January 31, 2024, you have until February 28, 2024 to submit this exercise.

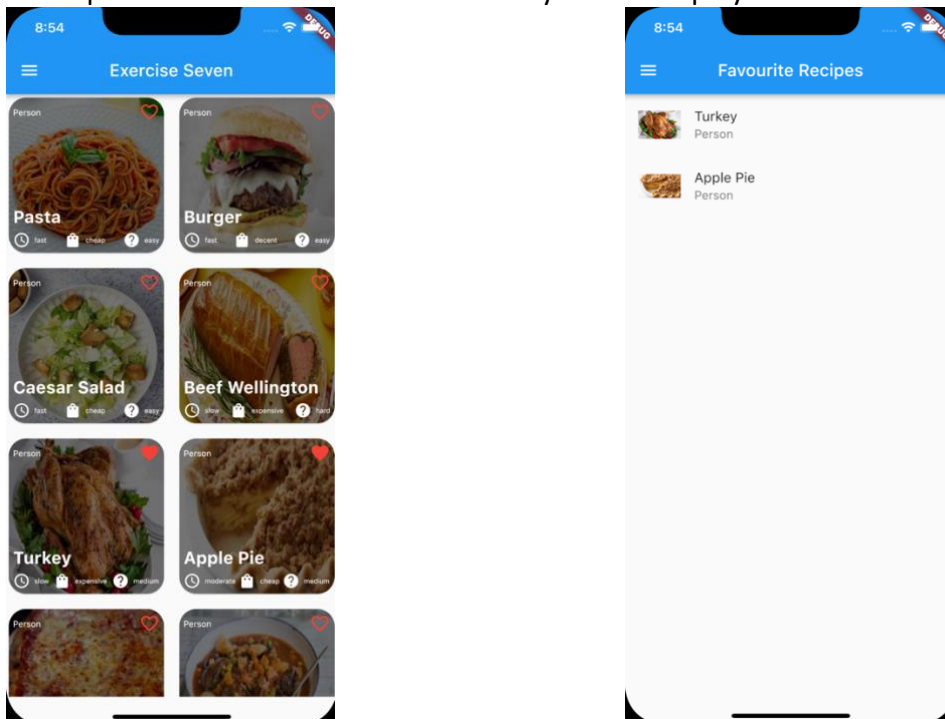

In this week's exercise you will be connecting the two previous exercises, so that now when you press the relevant recipe in the grid it will open in the recipe screen (from exercise 5).

Next, you will need to add a drawer to the application that will allow you to switch to two additional screens: Favourite recipes, and Settings.

Finally, you will need to add the functionality to favourite recipes and you will have to pass the favoured recipes to the Favourites screen so they can be displayed.

Submission

To submit this exercise, you will need to show me the app running on a simulator during class time (Monday or Wednesday). The following actions must be shown for full grades:

- 1) Navigate to the recipe page for the burger.
- 2) Navigate to the recipe page for the beef wellington.
- 3) Navigate to the recipe page for the chicken pot pie.
- 4) Navigate to the favourite recipes screen.
- 5) Navigate to the settings page.
- 6) Navigate to the home page.
- 7) Favourite the burger recipe.
- 8) Favourite the pizza recipe.
- 9) Favourite the caesar salad recipe.
- 10) Navigate to the favourite recipes screen.
